I received the email about the Tom Van Natta scale collection you are selling. I am interested only in American counterfeit coin detectors, so if you find that there are any of those in the collection please let me know whatever details are available. Thank you.

Hi Eric,

Michael Foster has written an article on the Kronenberg CCD variations and I could use a better photo of your detector featured in your book *US Coin Scales* on page IV-4-10 at the top of the page. Can you help me out, please?

Please let me know ASAP as I need to go to press.

Many thanks & Best Regards,
